OBJECTIVE

Detail-oriented Biotechnology graduate with hands-on experience in data analysis, Power BI, DAX, and Excel. Skilled at turning raw datasets into clear, actionable insights through independent analytics projects. Seeking an entry-level Data Analyst / Consulting role to apply analytical and problem-solving skills in a business environment.

EDUCATION

Bachelor of Science (B.Sc.) in Biotechnology

Parul University, Gujarat • First Class

SKILLS

- Data Analysis & Visualization: Power BI, DAX, Microsoft Excel (Pivot Tables, VLOOKUP/XLOOKUP, Charts)
- Programming & Querying: Python (Pandas, NumPy basics), SQL fundamentals
- Software Testing: Manual testing, test case design, bug reporting
- Domain Knowledge: Biotechnology, laboratory data handling
- Soft Skills: Analytical thinking, attention to detail, report writing, time management

PROJECTS

Superstore Sales Analysis

Power BI, DAX, Excel

- Analyzed retail sales data across categories, regions, and time periods to uncover trends in revenue and profit margins.
- Built interactive Power BI dashboards with DAX measures (YoY growth, running totals) to visualize key business metrics.
- Identified top and bottom performing product segments, supporting data-driven inventory and pricing recommendations.
- Cleaned and structured raw sales data in Excel using pivot tables and formulas prior to visualization.

Rapido Ride Data Analysis

Power BI, Excel

- Explored ride-booking data to identify usage patterns, peak demand hours, and city-wise ride distribution.
- Created visual reports and KPI dashboards summarizing ride volume, cancellations, and average trip value.
- Highlighted peak-hour demand trends to support hypothetical driver-allocation and surge-pricing decisions.

Uber Trip Data Analysis

Excel, Power BI, Python

- Performed exploratory data analysis (EDA) on trip data to study ride frequency, trip duration, and fare trends.
- Used Python for initial data cleaning and Excel/Power BI to build summary dashboards of key metrics.
- Segmented trips by time of day and location to identify actionable patterns in rider behavior.

CERTIFICATIONS

- NPTEL Certification – Biotechnology
- Microsoft Excel – Pivot Tables, Formulas & Dashboarding (self-study/practical projects)
- Power BI & DAX – Applied through independent project work

ADDITIONAL INFORMATION

- Completed multiple self-driven data analytics projects to build practical, portfolio-ready skills.
- Maintains project work and code samples on GitHub.
- Actively learning SQL and advanced Power BI to strengthen data analyst toolkit.
